

Cymraeg a'r DCF

8th October 2019 9:00am - 3:30pm

All Nations Centre, Cardiff

Promoting opportunities to develop Welsh language skills in English and Welsh medium schools using the Digital Competence Framework

This one day event will feature 3 guest speakers and 9 stations throughout the day, where teachers will be sharing their effective practice and resources. There will also be a marketplace to meet with various national and international companies to look at available Welsh resources.

Guest speakers include:

- **Rhys Roberts (Llanharan Primary School)** will share his IntoFilm projects and Cymraeg Campus journey. Rhys was the winner of the 2019 National IntoFilm Teaching Award.
- **Richard Carbis (Ysgol Gynradd Gymraeg Pencae)** will discuss the expectations of Welsh nationally and the development of pupils ready for the 21st century.
- **Mark Jones (Ysgol Uwchradd Rhydywaun)** will be sharing how the school developed DCF skills across the school.

This will be an exciting opportunity to develop a wider range of Welsh activities incorporating the use of the DCF. There will be headteachers and teachers from the primary and secondary sectors sharing experiences of developing better use of DCF through a richer and more purposeful teaching of Welsh language skills.

Please book directly via Cronfa using the event code below.
